EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christopher Walsh on November 5, 2004.

The semicolons at the end of claims 62 and 63 were changed to periods.

On line 1 of claim 65, the phrase "the sensitizer" was changed to —the sensitizing reagent—so as to use the same terminology as used in claim 59.

2. The following is an examiner's statement of reasons for allowance: Application serial no. 10/648,264 is being allowed in view of the appropriately filed terminal disclaimer received on November 5, 2004, and since none of the prior art of record teaches or fairly suggests a method and kit for identifying and/or detecting a protein in a matrix such as a polyacrylamide gel by first contacting the matrix with a sensitizing reagent comprising one or more optionally substituted heteroaromatic compounds, contacting the matrix with one or more reduceable metal salts such as a silver salt to stain the protein, destaining the protein and carrying out mass spectrometric analysis of the destained protein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
